

## ISO 13485: Quality Management System for Medical Device Manufacturing

STI's Engineering Services Division is a solution based, build to print, contract manufacturing facility. STI does not have design authority for any of our customers including but not limited to medical and defense. STI has been recommended for ISO 13485 Quality Management System for Medical Device Manufacturing certification. Updates will be posted as they become available regarding our certification status.

**Our Mission Statement:** STI's mission is to provide electronic contract manufacturing, solution-based engineering, analytical services and training services and training resources to the electronics industry.

**Our Quality Policy:** STI will consistently provide products and services that meet or exceed the requirements and expectations of our customers as well as industry standards.
